October, 2013

The doctors and staff of Guilford Radiology care about our community, and have provided the highest quality medical imaging and personalized care for your patients for over 30 years. I would like to update you on some important key improvements at Guilford Radiology.

As an independent, physician-owned facility, we are able to set our fees at the lowest possible level, and make fee adjustments when necessary. We are happy to announce that for your uninsured patients who pay out-of-pocket, we have reduced their charges for MRI and CT exams by 50%. We are always willing to arrange a payment plan for all of our patients.

We are also pleased to tell you that we have lowered the cost of our life-saving Low Dose Lung Cancer Screening CT exam to just \$100. As you know, annual Low Dose Lung Cancer Screening CT scans saves lives in high risk smokers (50-80 years old, 30 pack year history) and ex-smokers (for 15 years after stopping a 30 pack year history). The I-ELCAP studies have shown an 80% cure rate for the lung cancers detected in their Low Dose Lung Cancer Screening Program. Our low dose CT exams are only 25% the radiation dose of a regular CT exam.

The Guilford Radiology PACs system is now electronically connected to both Yale & Middlesex Hospitals. We can immediately transmit any Guilford Radiology exam to either hospital within minutes, allowing for rapid tertiary care of your patients and evaluation by hospital surgeons & other specialists. If you need any exam sent to either hospital, just call our office.

We continue to offer High Field Strength 1.5T MRI, 16 Slice High Resolution CT with 3D Reconstructions, Digital Color Doppler US, Digital Mammography, Bone Densitometry with FRAX, Digital X-ray & Digital Fluoroscopy. We accept all walk-in Stat exams with immediate reads. All routine exams will be dictated and a report sent to your office by the end of the day. All of our equipment, staff and radiologists are certified by the American College of Radiology.

All of our exams and reports can be viewed on-line, at your office or home, through our website, [www.GuilfordRadiology.com](http://www.GuilfordRadiology.com). If you need a user name & password, please contact Kelly Rose ([kellyr@ramradiology.com](mailto:kellyr@ramradiology.com) or 860-346-8481 ext. 202). Please contact me if I can provide any further information, or if you have recommendation for how we can provide better service to you & your patients. I can be reached any time at [drmichaelcrain@yahoo.com](mailto:drmichaelcrain@yahoo.com) or 860-395-6717.

Thank you,

Michael Crain, MD  
President, Guilford Radiology
